TERMS AND CONDITIONS – FIRE EQUIPMENT

1. We undertake to see that your fire extinguishers are properly charged with the correct chemicals, however we cannot take responsibility for obsolete equipment.
2. This annual agreement will continue to be in force unless and until it is terminated by either party. Either party may terminate this agreement by giving the other a thirty (30) days' notice in writing however the annual service charge is non-refundable.
3. We reserve the right to curtail further services without notice in the event of non-payment as per our normal trading terms, which are 30 days from date of statement after which interest is charged at 3% per month on all overdue accounts.
4. It is mutually understood that any discrepancies in the total number of units shown on this agreement and / or serviced at the premises will be automatically adjusted on our Service Records and the charges per service will be adjusted accordingly.
5. During our normal service and when necessary, equipment will be repainted, instruction labels replaced, wall brackets supplied, spares provided and refills changed if required. These will be charged according to the prices ruling at that time.
6. Whilst every precaution will be taken during service and / or installing equipment, this work is undertaken purely on your own responsibility as no liability will be accepted by us for damage to any equipment / walls / ceilings or other items.
7. If a service cannot be carried out through no fault of this company such as not acknowledging e-mail notifications, appointment confirmations, refusal of admission by your staff, closure of premises or non-availability of your personnel to escort our team during their service etc. It will be deemed that we have met our service obligation unless we have had prior notice in writing requesting the service to be re-scheduled.
8. Service carried out by request as in the case of a missed service (Para. 7) or for reasons of equipment having been used will be charged as a special service under normal contract rates.
9. All services sheets should be signed by the client over a rubber stamp. If a client is not satisfied with the service, he should still sign the sheet inserting his comments on the service sheet which is always in duplicate. In the case that no one is able to sign, or will not comply for whatever reason to this condition we will consider that we have completed our obligation as far as this agreement is concerned.
10. Any persons tampering or interfering with fire equipment / fire alarm other than that for the purposes of use in a real-life fire situation will absolve NIMROD from any liability whatsoever.
11. If any fire equipment has been used whether legitimately or accidentally, NIMROD should be informed in writing / by e-mail and a special service should be requested in order to maintain your equipment in good working condition.
12. Fire Training & Audit can be arranged by mutual agreement in accordance with costs ruling at the time. It is the customer's sole responsibility to provide a safe area for the "live" fire demo as no responsibility will be accepted for damage to your property or any other property. Our staff may decline to provide this practical demo if in their opinion it is unsafe to do so.
13. Equipment which has been collected and / or delivered to our workshops for service or repair, will be subject to delivery charges if it has to be delivered back to your premises. For clients who do not approve our service / repair estimate, we will store the equipment for a period of 2 weeks after which storage charges of 100/- plus VAT per unit, per day will apply. A minimum charge of 4000/- plus VAT will apply for pumps that need to be removed for inspection and / or repair at our workshop.
14. Whilst every care is taken by us to ensure that no mix-ups occur - we take no responsibility once the delivered equipment has been accepted by you, therefore before acceptance, please ensure that the correct equipment has been returned to you.
15. Our bi-annual upcountry maintenance services are scheduled during the months of April / May and October / November – Special trips on any other month can be arranged for an extra charge.
16. Up-country emergency calls will be subject to extra transport costs, accommodation and out of Nairobi expenses at the discretion of the company. All charges are subject to VAT.
17. Additional emergency calls are charged at 3000/- per visit, plus 2000/- per hour of part thereof within Nairobi and surrounding areas. All charges are subject to VAT.

WE AGREE TO THE ABOVE TERMS AND CONDITIONS
